## Award-winning health insurer

### Health insurance to suit your needs and budget

In the UK, we benefit from one of the best healthcare systems in the world. But sometimes you need more, such as avoiding long waiting lists to gain quicker access to treatment. Some health insurers limit where, when and who can treat you. We believe that's wrong. It's your health, so you should be in control.

Our individual and family health insurance product range is designed to protect the health and wellbeing of you and your loved ones. Our Policies include telephone helplines that provide 24/7 access to a GP and a variety of different health related topics. They can be managed on the go on our WPA Health app, including making a claim.

Whichever product you choose, you can rest assured that our award-winning service is at the forefront of all that we do.

#### The important bits

A range of joining (underwriting) terms are available and no medical examination is required. Maximum joining ages may apply, depending on the product. Pre-existing and long-term medical conditions may not be covered.

### Independently commended by our members

Everybody likes to know when they've done something well – individuals and companies. So it's especially great for us to see that our Trustpilot reviews are looking healthy. We offer all of our members a personal commitment to customer service excellence from staff who are trained first and foremost to listen – and most of all, to care. If we can help, we will.

4.8 out of 5 based on 1,237 reviews as of 30/03/22

### A personal service from your local Healthcare Partner

Our specialist Healthcare Partners are here to help you at every stage of your journey with WPA. They only advise on WPA's products and services, so you can rest assured that they will help you find the right cover at the right price. They are available at a time that's convenient to you – face to face, by email or over the telephone and will happily talk through your choices with you to find the Policy that best suits your needs.
